

THE LITERARY SECTION OF THE

Monday Club Entertains the Entire Club.

It Affords an Evening of Merriment and Enjoyment to Members and Friends.

The entertainment given on Saturday evening by the literary section of the Monday club to the entire club in the beautiful auditorium of the high school building, was a great success. As is generally known the Monday club is divided into three sections, the literary, musical and art sections. Each of these sections are presumed to entertain the entire club once a year. In addition to those belonging to the club, each section is bringing one or more guests by paying an admission fee of twenty five cents. The literary section was the first to furnish this entertainment and right royally was it done on Saturday evening.

Mrs. B. D. Billingshurst, who is president of the club, is among the most energetic and enthusiastic presiding officers the club has ever had, and with the addition of enthusiasm of the members the year has been most prosperous one.

The editor of the Journal-Miner not only had the privilege of attending the entertainment on Saturday evening, but was doubly honored by being the guest of the president of the club for the occasion. A more enjoyable evening than was spent there has not fallen to his privilege to experience for a long time.

The programme of the evening was prefaced by a beautiful and skillfully rendered piano selection by Miss Annabelle Bailey who also officiated as accompanist during the evening and was followed by Mrs. J. B. Tomlinson who in the following well chosen remarks announced the programme of the entertainment and the program of exercises:

Members of the Monday Club, and friends: We, the literature section, have devoted the entire year to the study of the sublime "Mind and Art" of William Shakespeare, working with the plots and characters of three of his most noted plays, catching glimpses of the many-sided wisdom of this "thousand souled dramatic poet" learning practical lessons of human life and character as portrayed in these dramas. Our studies thus far, have been only tragedy, we have passed to look at the grave and serious side of life.

We now ask your kind and earnest attention to the program. The program consisted of four numbers. The first was a chorus by "The Star Section of the Club," meaning the course the literary section. The ladies were all gowned in white and presented a beautiful appearance on the stage, while the singing was also good.

Number two was a farce in one act by the Stars of the Star Section under the management of Mrs. Fannie Kuntz, entitled, "Place aux Dames" or "The Ladies Speak at Last." The characters were Lady Macbeth, Mrs. W. T. Brown, Juliet, Mrs. H. and Mrs. W. W. Portia, Mrs. W. W. Ross, and Ophelia, Mrs. J. L. Munda.

This afforded no end of merriment to the audience, as each of the characters were excellently sustained, their costumes were gorgeous in the extreme and the lines full of humor, with an occasional touch of Shakespearean pathos.

A duet by Romeo and Juliet, was a very taking number, the music being catchy but the singers were robbed in sheets, so that with the lights turned on the audience was simply left to guess who the singers were.

The fourth and last number, which was very amusing consisted of eight songs, eight choruses and one encore, which was followed by the section yell as follows:

"Zip, Zip, Zip; 'Tis Me Ray; Shakespeare Sec. Is All O. K."

The names of the members of this section follow:

Mrs. B. D. Billingshurst, Miss Amy Nelson, Mrs. H. D. Berry, Mrs. W. T. Brown, Mrs. H. D. Atkinson, Mrs. J. Brown, Mrs. H. and Mrs. W. W. Portia, Mrs. W. W. Ross, and Ophelia, Mrs. J. L. Munda.

This afforded no end of merriment to the audience, as each of the characters were excellently sustained, their costumes were gorgeous in the extreme and the lines full of humor, with an occasional touch of Shakespearean pathos.

A duet by Romeo and Juliet, was a very taking number, the music being catchy but the singers were robbed in sheets, so that with the lights turned on the audience was simply left to guess who the singers were.

The fourth and last number, which was very amusing consisted of eight songs, eight choruses and one encore, which was followed by the section yell as follows:

"Zip, Zip, Zip; 'Tis Me Ray; Shakespeare Sec. Is All O. K."

the Colorado river near Empire Falls, about fifty miles below the Needles. It is famous in that part of the country as it was mined for over thirty years by "Billy" Mack, who is reported to have taken out a large quantity of rich ore. Single handed and alone Mack sunk the shaft to a depth of 300 feet and exposed a large body of free gold ore. For years he has refused to sell or work his property and many wild stories have been told concerning the fabulous wealth of the mine. Mack gave several options on the property at various times, but when the options fell due he always found some way out of a sale. Messrs. Randall & Forden say that they have bought the property for themselves and that they intend to develop it systematically with modern machinery. They are also interested with T. M. Brennan in the Colorado Davis and Osborne group of claims in that district and it is their purpose to erect a custom smelter under a smelter project by San Francisco parties and long talked of, is soon built.

W. J. Wilsey, C. F. Goddard and M. S. Taft returned today from their trip to look at big mining proposition about thirty or forty miles north east of Phoenix. They came back with great stories of what they saw and of the possibilities of the proposition they examined there. They will not say exactly where it is located or anything very definite about it further than that it is one of the most wonderful deposits of ore they ever saw or dreamed of. The ledge they saw, crops out of the mountains for a distance of about 3000 feet, from 50 to 100 feet wide and 500 to 700 high and the whole thing seems to be quartz. They took a lot of samples and expect to have them assayed the first of the week. They only located two claims for they say that a thousand stamp mill could not use up the ore that sits out of the ground in one man's life time, and if they can get an average valuation of from three to five dollars per ton they have one of the biggest things ever discovered. There is enough water for a 100 stamp mill and timber without limit for mining and fuel purposes. They are very enthusiastic over what they saw.

Ed S. Campbell came in Saturday evening from the Stark Mining company's properties on lower Turkey creek and reports the new mill running in the finest possible shape and everything looking fine in the mine.

P. M. Drescher, of the firm of Elliott & Drescher, mining engineers and mill builders, left Saturday night for a trip to Cochise county to make an examination of some mining prospects. He will be absent for about ten days or two weeks.

J. M. Sullivan, president of the Great Republic Mining company, which own a number of fine prospects on lower Turkey creek, came in from that section two or three days ago to purchase a team of horses for the mine. He informed the Journal-Miner that his recent trip to Ohio in the interest of the property was very satisfactory and he succeeded in raising sufficient money to put in the new hoisting plant and give them several hundred dollars to continue the development. The main shaft is now down 220 feet and a tunnel is being driven into the side of the mountain to connect with the shaft. This material has been ordered for some time but has been delayed on the road and as soon as it arrives active work will be commenced. The property owned by this company carries its values principally in copper and is said by those who have examined it and are familiar with the conditions, be a splendid prospect and offer big chances of developing into a mammoth copper property.

A breaching to connect two boilers with one smoke stack was shipped today to Mt. Union for the Arizona-Michigan Mining company, of which E. R. Greenwood is superintendent. The boilers were shipped some time since.

Death of Mr. Lantry. The Albuquerque Citizen of April 14 contains a notice of the death of Henry Lantry, a well known railroad contractor, known from Chicago to the Pacific ocean. The firm was formerly known as B. Lantry & Sons, and was composed of B. Lantry and his two sons Henry and Charles. The firm became wealthy in building the Santa Fe road, west of Dodge City in 1873, and there has probably been a year since that time when they have not done more or less work for the company. They left the contract for building the S. F. P. & P. road alone. After the death of the father, which occurred a few years since the name of the firm was changed to B. Lantry & Sons. A notable contract taken by the latter firm was for the Santa Fe company in building the China Road at San Francisco involving \$1,000,000. The Citizen mentions a contract in New Mexico which involved \$80,000 also.

The cause of Mr. Lantry's death is attributed to heart trouble. Deceased was of a sunny and genial disposition making friends of every one with whom he became acquainted.

The aerial tramway of the Bradshaw Mountain Copper Mining and Smelting company has been completed, and a trial test made of it. It was found to work very satisfactory. The railroad has not completed the work of putting in a new siding yet at Middleton but as soon as that is done the tramway will be started up permanently. In addition to lowering the ore from the mine to the station at Middleton, or more properly speaking probably, the operation of the tramway in conveying the ore down the steep incline by gravity, is guaranteed to develop motive power equaling thirty horse power. It is now believed

however, that instead of thirty horse power, it will come more nearly developing sixty horse power. By the first of May the mine, the tramway and the Val Verde smelter, recently purchased by the above company, will all be in operation seven days every week in the year.

Parties named Ferguson, who recently came here from Los Angeles at the solicitation of J. A. Conlee have taken a bond on the property owned by T. M. Earnhart, in Peoples valley near the famous Model mine. The mine has been partially developed by Mr. Earnhart, and has shown up some very good ore. The condition of the bond requires continuous working of the property, and at its expiration provides for the payment of \$50,000 to Mr. Earnhart.

John Gray, the well known miner, came in from the Golden Cross mining company's properties near Walker last night. He says work is going ahead in fine shape on the property, which was formerly known as the Pine Mountain property, and the showing being made is very flattering. He says the Poland tunnel will be through in about fifteen or twenty days, as the men on each side are working on the other side working the two crews not being over 150 or 200 feet apart. As soon as the tunnel is through the work of enlarging and putting it in shape will be pushed with all possible haste and it is hoped to have the electric cars running through the tunnel this summer.

When this result has been attained there is no doubt of the great good it is going to do from a mining standpoint for the Poland and Walker districts and the results will be felt for good all over the county. It is estimated that there will be at least \$30,000 a month added to the pay rolls in those districts. This will mean that Prescott will sell a large quantity of supplies and some thousands of dollars will find their way into the business channels of this city.

Chas. F. Goddard will leave tomorrow night for the properties of the Goddard Mining company which are located about two miles from Wickenburg, between that place and the Oro Grande property. Mr. Goddard says the property is showing up fine. The work that was commenced some weeks ago has developed some fine ore and the shaft which is now down 45 feet in all solid ore, making a solid breast of ore fully six feet across. This runs as high as 802 feet and will average good \$15.50 per ton clear assay. Mr. Goddard expects to remain at the mine and take personal charge of the work. Up to this time only one shift of men have been working but he will increase it to two shifts at once and by the first of the month expects to have three shifts working sinking the shaft.

J. R. Liston returned yesterday from his visit to San Diego to his family. He will go out to the Bradshaw mountains tomorrow, where he is superintending the development of the Wild Flower group of mines. He says that in the breast of a drift on the 200 foot level the ledge is fifteen feet wide and it has an ore body eleven feet in width.

PUBLIC RECORDS. The following is the daily report of instruments filed in the county recorder's office as reported by Prescott Title Company:

April 12—Geo D Berry to Adele Berry, m deed, Argentine mines, Turkey Creek district.

April 13—J C Harrington locates three mines fifteen miles south of Seligman.

Provident Gold Mining Co locates Mountain View Ext mine, Black Rock dist.

John Keenan to Mand Keenan, grants general power of attorney.

W A Holder locates Little Rose placer, Bigby district.

Joe I Roberts, sheriff, appoints the following deputies for Prescott precinct: W E Glenn, Geo W Loring, Tom E Thompson, Roy Spence, B M Baker, A P De laity, Sam Greenwood, Frank McAfee, A K Kirkland and B O Humes.

J R Caldwell and wife to J H Nash, W deed s one half one fourth ss 11, tp 16 r 4 W Co \$500.

Fred Reiff files a w on Bordeaux mine, Big Bug district.

H Voge, J B Bender and E B Moden incorporate the Voge Wholesale Liquor company, capital stock \$75,000.

Three mining location notices.

April 13—J C Harrington locates three mines fifteen miles south of Seligman.

Provident Gold Mining Co locates Mountain View Ext mine, Black Rock dist.

John Keenan to Mand Keenan, grants general power of attorney.

W A Holder locates Little Rose placer, Bigby district.

Joe I Roberts, sheriff, appoints the following deputies for Prescott precinct: W E Glenn, Geo W Loring, Tom E Thompson, Roy Spence, B M Baker, A P De laity, Sam Greenwood, Frank McAfee, A K Kirkland and B O Humes.

J R Caldwell and wife to J H Nash, W deed s one half one fourth ss 11, tp 16 r 4 W Co \$500.

Fred Reiff files a w on Bordeaux mine, Big Bug district.

H Voge, J B Bender and E B Moden incorporate the Voge Wholesale Liquor company, capital stock \$75,000.
